To whom it may concern,

Each year our school provides busing for the majority of our students without which they would not be able to attend our school. The cost of busing for the 2016-2017 school year was \$268,167.77 and the reimbursement received from Milwaukee Public Schools was \$51,261.03 for 153 students representing 67 households that ride the bus. The school therefore covered \$216,906.74 of the transportation costs for our students which means the school is not reimbursed for 80% of the busing costs for our students. In our view this is not equitable.

Sincerely,

A handwritten signature in cursive script that reads 'Ken Smith'.
